Marian University Resident Camp: Girls Exploring Medical Sciences (G.E.M.S.)
Grades: 8, 9, 10
Office Code: 2053
Are you fascinated in biology class about how the human body works? Do you find yourself drawn to the “Untold Stories of the ER” TV shows? Then this camp based in Marian University’s College of Osteopathic Medicine is for you! You will learn about various medical specialities and have lots of hands-on activities, like learning how to splint a broken arm, how to evaluate a new-born baby, seeing how the heart works and maybe even get to hold a heart specimen! We will even spend a day learning about how medicines are developed and produced at Eli Lilly & Co! Come spend a week learning what it might be like as a medical student! You will stay on campus in one of Marian University residence halls.
$305

Purdue University Resident Camp: Technology Advances Girl Scouts (T.A.G.S.)
Grades: 7, 8, 9
Office Code: 2053
Explore the exciting world of technology with the faculty, graduate students and staff of Purdue University’s Polytechnic Institute. Participate in hands-on activities to work in college labs to expand your knowledge and skills. The faculty and graduate students will lead the way as you experience different departments including Aviation, Building Construction Management, Computer Graphics, Computer Technology, Electrical Engineering, Technology, Mechanical Engineering Technology, and Technology Leadership and Innovation. Stay on campus in one of Purdue University residence halls and dine in the university dining halls.
